BioTimeCloud

Cloud-Based Time Attendance Solution

BioTimeCloud

Powered by:
![AWS logo]

BioTimeCloud is a cloud-based time attendance solution that lets you manage and organize your workforce effectively wherever you are without having any physical server.

With a powerful AWS database storage, you can make sure that all your data are protected. It ensures the availability and confidentiality of your data and provides end-to-end privacy and security.

The solution comes with a mobile application that is developed to allow employees to report their attendance using real-time location tracking.

With its user-friendly interface, collecting and organizing employee attendance data has never been easier.

Why BioTimeCloud?

HIGH LEVEL SECURITY

With AWS cloud storage, all your data is highly secured and protected.

EASY SETUP

No need to setup up a costly physical server. Access real-time data anywhere.

SCALABILITY

Upgrade your storage needs without purchasing & installing expensive upgrades yourself.

ACCESSIBILITY

Access your important data anytime and anywhere without any dyndns or public IP needed.

MAINTENANCE-FREE

Subscription includes time attendance functions, mobile app, and updates.

ONLINE SERVICE & SUPPORT

Get help from our dedicated and well-trained support team with no additional charges.

ZKTeco

BioTimeCloud Features

Real-Time Location Tracking
Know the exact current location of an employee who works in the field with the use of GPS mobile tracking system.

Multiple Location Assignment
HR or supervisor can assign an employee to work and report attendance from multiple workplaces and field locations.

Attendance Policies Management
HR or supervisor can set pay code, overtime rules, holidays, shift schedules and cycles for employee policy management.

Daily Activity Monitoring
Manage daily timecards and attendance summaries of employees to boost productivity and calculate payroll efficiently.

Attendance Approvals
Employees can apply for manual log, leave, and overtime through mobile application which will go through HR approval process.

Mobile Application and Geofencing
Report attendance logs based on assigned workplace with optional employee reporting zone limitation.
Leave Management
Assign and monitor available annual leave, sick leave, etc. that is available for an employee.

Real-Time Attendance Report Calculation
Generate attendance reports directly and export in a ready-to- print PDF or Excel format.
